PROBE is a contemporary lighting that serves an honest and essential function with an instinctive and refined geometric shape. PROBE comes with various types of lamp; a spot rail lamp, wall lamp, standing lamp, and chandelier to be adapted to different spaces with a perfect combination of lightings. The customer also can choose from ambient or focused beam light to find the best light quality in the space.

“We like to design objects that are functional, and aim for a long lifespan. For that reason, we do not follow trends and adopt a design language which can sustain the passage of time. This is especially important for lighting, which plays a big role in the perception of a space and cannot be moved around like furniture.”
